FROM THE FACTORY TO YOUR HOME, PROFESSIONALS DEDICATED TO PROVIDING YOU PEACE OF MIND

Coleman designs its products to offer comfort, safety and reliability at all times. This is why they rely on a network of certified contractors with the best technical knowledge for the installation of their systems. They will help you select the best suitable equipment for your home and will install your system for maximum reliability and performance.

This network of certified dealers is supported by The Master Group, the largest independent distributor in the field of HVAC-R in Canada. For nearly 65 years, The Master Group has distinguished itself for its extensive inventory, exceptional customer service and technical expertise. An additional insurance of peace of mind for many years.

THE COLEMAN NAME HAS BEEN RENOWNED FOR OVER A CENTURY FOR THE STRENGTH AND RELIABILITY OF ITS PRODUCTS.

In 1914, Coleman introduced the first 300 candlepower lantern. The product was credited with lighting up rural America. In 1923, the Coleman Company introduced the fold-up camp stove. It quickly caught on. When the Great Depression took hold of the country, Coleman turned to manufacturing gas floor furnaces and oil space heaters. Then, during World War II, Coleman introduced the GI pocket stove. Over one million GIs went to war with this ingenious invention.

Coleman air conditioners and heaters are adaptable to even the most punishing climates – and we prove it right here in our North American factories. We put our systems through extreme weather temperatures and corrosive environments to ensure that your system is built for the long haul. But don't just take our word for it. Take the word of those who have trusted the Coleman name for decades.
